Certificate No. 883.

“RAILWAY ACT”
(Chapter 285, R.S.B.C. 1948)

In the matter of gas and oil pipe-lines crossing railways, and also in the matter of more adequate automatic signals where highways cross railways at grade level, it is deemed necessary to amend Part I, Rules and Regulations, Rules 37, 38, 39, 40, and Appendices G and I, Location Construction and Clearances, by authority of the provisions of section 289 of the “Railway Act,” being chapter 285, R.S.B.C. 1948.

Whereas the Board of Transport Commissioners for Canada has, by General Order 812, adopted regulations governing the crossing of railways by pipe-lines, and by General Order 811 has adopted new standards governing the installation and maintenance of improved automatic signalling devices at highway grade crossings, it is deemed necessary at this time to adopt the same standards as those adopted by the Board of Transport Commissioners for Canada.

“POULTRY AND POULTRY PRODUCTS ACT”

NOTICE is hereby given that, by Order in Council No. 1918, approved July 27th, 1956, His Honour the Lieutenant-Governor in Council has been pleased to amend the “Hatchery Approval Regulations,” made pursuant to the “Poultry and Poultry Products Act” by Order in Council No. 1927, dated the 17th day of August, 1946, as amended, by striking out Regulation 21 and substituting therefor the following:—

“21. Flocks may qualify as approved flocks and as sources of supply of eggs for incubation in an approved hatchery in accordance with the following rules:—

“(1) An application for flock approval on the form prescribed by the Minister shall be completed by the flock-owner and forwarded to the Poultry Branch, British Columbia Department of Agriculture, 70 Eighth Street, New Westminster, not less than fourteen days prior to the inspection date indicated on the application.

"(2) No application for flock approval of a flock consisting of less than 100 females will be accepted.

"(3) The flock-owner shall pay a minimum fee of \$6 for the approval of any flock of 200 birds or less and a fee of 3 cents for each bird approved in excess of 200.

"(4) The flock-owner, or his agent, shall pay all charges made under these regulations to the Inspector upon completion of the approval of the flock. In the event that the entire flock is not approved at one time, payment shall be made for that portion of the work completed.

"(5) Poultry of standard breeds and varieties, free from standard disqualifications and typical of the breed, may be entered. Synthetic breeds, and strain, and breed crosses may be entered and banded only on the basis of health, vigour, and freedom from anatomical defects which are detrimental to the production characteristics of the birds. Females intended for commercial production only will be banded with red bands.

"(6) On the first inspection, birds accepted under the flock approval policy will be banded by the Provincial Inspector with a sealed leg-band. Birds not accepted under the policy must be removed at the time of inspection and disposed of to the satisfaction of the Inspector.

"(7) All flocks will be subject to unannounced reinspection, and on each and every visit the Inspector shall have access to all poultry flocks, premises, and records of the flock-owner. During the period the flock is under the flock approval policy, sanitary conditions of poultry houses and premises and the general health of flock shall be maintained to the satisfaction of the Minister.

"(8) Pullorum testing of approved flocks will be supervised by an Inspector.

"(9) Any flock having one per cent (1%) or more reactors shall be subject to further tests until the percentage of reactors is reduced to zero per cent (0%). Retest will not be made until thirty days after initial test has been completed.

"(10) Any flock showing more than five per cent (5%) reactors on the first official test shall not be eligible for flock approval for the current hatching season.

"(11) Where two or more breeds are kept distinctly separate on the premises, each breed shall constitute a flock, and each flock shall have less than one per cent (1%) reactors to pullorum.

"(12) Birds shall not be tested for pullorum disease until egg production has reached twenty-five per cent (25%). All reactors must be disposed of for slaughter.

"(13) Only birds approved under the flock approval policy shall be mated, and they shall be housed or penned separately from any other flock on the same premises. All birds on the premises, except water-fowl, must be tested annually for pollorum disease.

"(14) In the event of an outbreak of contagious disease, the Provincial Poultry Commissioner shall be notified at once, and if in the opinion of the Minister such action is deemed advisable, the flock shall be placed under quarantine, and any necessary cleansing and disinfecting shall be carried out.

"(15) No hatching-eggs, baby chicks, or breeding stock shall be sold from an approved flock while it is under quarantine.

"(16) A certificate of acceptance shall be issued by the Provincial Poultry Commissioner to such flock-owners as comply with the rules and regulations herein. This certificate of acceptance shall be valid for one year from the date of issuance.

"(17) Owners of approved flocks shall keep such records as may be required, and shall give their fullest co-operation to the Inspectors in carrying out the work. Failure to observe the rules and regulations herein set forth shall constitute cause for cancellation of the certificate of acceptance.

"(18) Any owner whose flock has been disqualified and his entry cancelled for failure to comply with these regulations shall not be permitted to re-enter his flock until he has received permission from the Minister.

"(19) In the event of any question arising as to the application of these regulations, the ruling of

a person appointed by the Minister for that purpose shall be final.

"(20) Turkey flocks to be eligible for approval must comply with the above regulations, with the exception of clause (12).

"(21) Flocks under the R.O.P. policy qualify as approved flocks."
